

## THE CONCEPT:

True to its name, The Jungle is a boutique hotel designed to feel like a hidden sanctuary. The architecture is heavily inspired by traditional Khmer wooden houses, blended with modern tropical design. The property is densely packed with exotic plants and trees, creating a cool, shaded environment that feels miles away from the city heat.

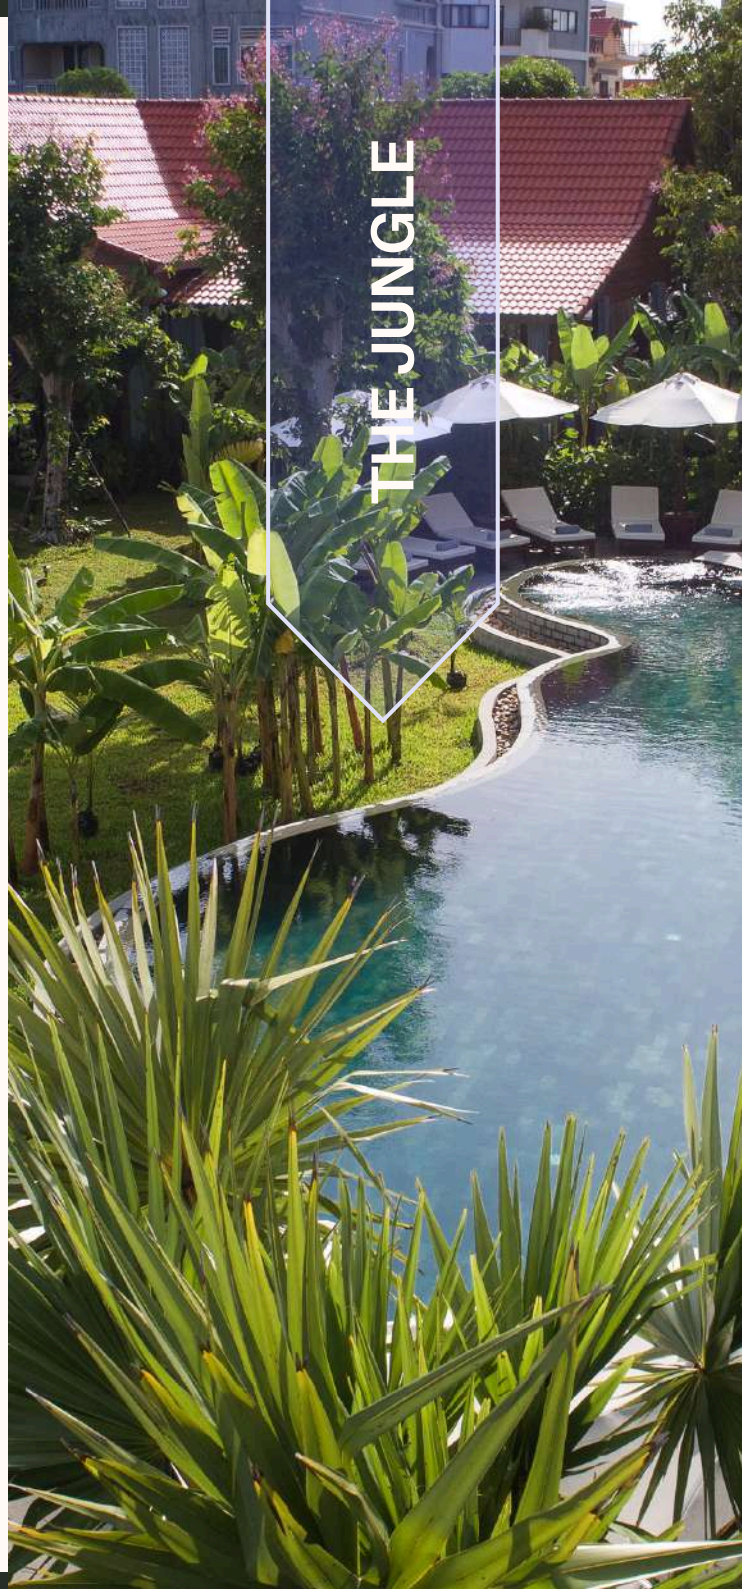

### Location:

It is exceptionally well-located for those who want to be close to the action but sleep in total peace:

\* **The Heart of the City:** Tucked away in a quiet alley just behind the Old Market (Psar Chaa) and the riverside.

\* **Pub Street:** Only a 5-minute walk away, making it one of the most convenient locations for dining and nightlife.

\* **Angkor Wat:** About a 15-20 minute Tuk-Tuk ride.

## WHY GUESTS LOVE US:

The Jungle is a favorite for couples and travelers seeking a romantic, intimate setting. It is highly praised for its unbeatable location (walking distance to everything) while maintaining a hidden, quiet atmosphere that truly feels like a tropical escape.
