

## THE CONCEPT:

As its name suggests, The Nature is designed as a peaceful retreat that prioritizes a "back-to-nature" philosophy. It features rustic-chic architecture with heavy use of natural wood, stone, and wide-open spaces, creating the feeling of staying in a luxury tropical lodge rather than a standard city hotel.

### Location:

It is situated slightly further from the city center than the other two, offering a much quieter, more rural atmosphere:

- \* Distance: About a 10-minute Tuk-Tuk ride (approx. 2-3 km) from Pub Street and the Old Market.
- \* Environment: Surrounded by local gardens and traditional Khmer village life, making it perfect for those who want to escape the urban noise.
- \* Angkor Wat: Roughly 15-20 minutes away by vehicle.
